

Lymphatic Enhancement Testimonials

"I am a nurse and certified lymphatic therapist. I have been using the Lymphstar Pro for about 6 years now and I have had solid results with my lymphedema clients.... It has helped countless clients to relieve sinus pressure and swelling to any body part's status post surgeries like mastectomies, shoulder repairs, knee repairs etc... I have had PT's absolutely floored with results I get with these clients. So needless to say, I adore this machine." **Paula Barron, LPN, MLD/CDT, Northampton, MA**

"I have had chronic lower back/pelvic pain for 13 years that is now 95% resolved after only one session of lymphatic release work. Very powerful work and the rest of my body is eagerly awaiting the same results! **LC, Arizona**

"Chemotherapy has given me so many tough side effects. Your treatments each week have greatly reduced many symptoms, including the acid reflux at night so I sleep better." **Laura, NM**

"My LET Instrument is amazing at relieving my clients' lymph congestion. The fact they can actually feel the release of the congested lymph fluid during and after their session, in addition to the relation they feel during their time with me. This has made them more positive, productive and ready to stay on top of one of their most important body systems. Your Lymphatic Therapy is literally a life-saver for man of them. I am using it for after injury, too." **Sherry Long, Ph.D. CH RT® - Alamogordo, NM**

"I was interested to find ways to move fluid through the breast tissue, thinking it could help in preventing cancer. If you move the fluid out, you also move the hormones out. We have also seen good outcomes in women with painful fibrocystic breasts. They feel so much better after treatment and the breasts are softer, smaller, less cystic." **Nita Desai MD, East West Integrative Medicine, Louisville, CO**

More LET Testimonials

The Lymphstar line of LET allows the lymph system to be opened up to drain the toxins, etc. better and faster. Clients have come to me just to get a lymph treatment alone. I precede all of my treatments with a lymph treatment first. The Lymphstar will be an added asset to healing when used either alone or in conjunction with other instrumentation. **Thomas E. Croley, Ph.D., Professor Emeritus and Scientific Investigator, Texas**

My lymph nodes are like rocks. After having the LET for a month, it really changed my life! I suffered from SEVERE migraine for years ever since I was a child. Also I had really bad sinus and allergy. They seemed to go away!!!! Amazing...!!!!!! **Helen Lin, Orange, CA**

My name is Renee Schick and I own Renee's Survivor Shop in Toledo, OH. I was diagnosed with breast cancer in 2001 at age 36. In 2006 I started having swelling in my right arm and my fingers. Since I sell compression products and I educate others on the precautions of developing Lymphedema, I knew what I had. I did have 17 nodes removed and radiation, so...I started wearing a glove and sleeve. I had a gal stop in the shop to tell me about the Lymphstar Pro machine. I was very reluctant but had three treatments. Afterwards I was able to stop wearing my compression garments. It seems like all my scar tissue was broken up and felt like a drain being unclogged. We now have an OT giving regular treatments here and we love helping people like me.

Enjoy the Benefits of LET Technology

Works with the body's natural
energy patterns and uses
Vibrational Energies
Electrostatic Fields, Sound Energy
& Resonance Modalities

Decongest and Detoxify for:

Breast Health
Pain Conditions
Immunity
Hormones/Women's Health
Post Operative
Injury Rehab
Aging Skin
Edema, Lymphedema
Men's Issues
Digestion
Stress States
Fatigue
Esthetic Procedures
Sinuses/Colds/Flu

Why Health Conscious Individuals Should Try This Therapy!

The lymphatic system is like a vital 'RIVER OF LIFE' within us because it transports the fluid that cleanses every cell and organ in the body! It is THE pathway for TOXINS to exit from the blood and from the spaces between the cells.

What blocks Lymph Flow? Surgeries, injuries, radiation therapy, and removal of lymph structures create scar tissues that block lymph flow.

Modern lifestyles substantially add to impaired lymph function. These include tight clothing, lack of exercise, unhealthy food and abuse of food, electronic and chemical pollution, chronic stress, poor sleep, and hormone mimics called endocrine disruptors from plastics, air pollution, drugs, herbicides, and pesticides. These all burden the free flow of lymph.

The **Lymphatic Enhancement Therapy** offered by our practice will open up the lymphatic cleansing channels to amplify the body's natural detoxification and decongestion systems.

LET Helps With...

- It improves the FLOW of circulating lymph, blood, and bio-energy.
- Enhances the release of toxins through the lymphatic system with vibrational energies.
- Mitigates the 'healing crises' seen with other detoxification therapies.
- Relaxing, rejuvenating.
- Will maximize all of your current lifestyle improvements such as massage & bodywork, nutritional & herbal therapies, physical exercise, skin brushing, and mind-body techniques, yoga, etc.

How does the LET Therapy® work?

The LET Therapy® units emits a low energy electrostatic energy field that is safe and relaxing to experience. They also use sound energy a specific frequencies. New research in cell biology, as well as the use of modern electronic circuitry create a highly effective therapy ENHANCES the **transportation** of waste, or toxins, **out and** also facilitates the transport of immune functions **into** the cells and organs. When one understands how the lymphatic circulation works in our bodies you can see the value of this therapy system.

How was the LET Therapy developed?

The LET Therapy instrument developers began investigating immune problems and solutions after their son developed childhood leukemia and underwent medical treatment. They evolved the application of the LET Therapy® with the assistance of complementary medicine and holistic health practitioners, whose focus is on preventive and restorative options to health. These practitioners may include naturopaths, wellness coaches, massage therapists, integrative doctors, chiropractors, physical therapists, oriental medicine doctors, estheticians, sports medicine and wellness spas, and in physical therapy and rehab and in hospital for post- breast cancer.
